CUSTOMBIKE 2010 | 3th - 5th December, 2010 | Fair Center Bad Salzuflen

**CUSTOMBIKE 2010 - Europe's biggest Custombike-Show**

It's already going to be the sixth time of the biggest European Custombike-Show taking place in Bad Salzuflen from the 3rd to the 5th of December. As well as last year there are waiting over **500 radical individualized motorcycles** of any kind of style for the competent visitors. All well known exhibitors of this industry are going to show their newest creations at the CUSTOMBIKE 2010. No matter if it's a Chopper, Bobber, Cruiser, Fighter, Scrambler or Café Racer - every motorcycle fan will get his money's worth.

Every year on the first weekend of December the placid spa town attracts lots of people out of many countries to Nordrhein-Westfalen (Germany). Over the five past years more than **130.000 motorcycle enthusiasts** visited the Custombike-Show. In 2005 it was only just one exhibition hall which could hold 150 exhibitors and now there are four exhibition halls which could hold **over 300 exhibitors**.

At this weekend also the 200 final-competitors from the biggest European contest of custom motorcycles are going to compete in the showdown at the second **International Custombike Championship Germany**. From all qualified motorcycles a judging panel of experts is going to award the winner of all classes, and the competitors themselves are going to vote the German champion (Best of Show).

Another highlight is going to be the live **European Biker Build-Off** that will take place the fourth time. At this competition two well-known top customizers are going to build a Custombike starting from scratch during this convention. This year Bodo Hayen (Die Bike Schmiede Süd) from Germany and Mario Kyprianides (Chopper Kultcha) from United Arab Emirates will accept the challenge. The winner of this contest will be voted by the audience on Sunday.

In addition to the plenty of all unbelievable fascinating motorcycles there are also lots of **motorcycle-equipments, -clothes and -accessories**. The show- and action-programm is both, informing and entertaining, and underlines the high entitlement of this convention. You won't get bored with colourfull **bodypainting-** and **fashionshows**, **live foto-shootings** and the voting for the **Miss CUSTOMBIKE 2010**. New factory bikes like the spectacular fun-machine made by the little device Milan special bike forge CR&S which celebrates its **premiere in Germany** at the CUSTOMBIKE 2010, are presented in detail on the main stage. Also this year there will be a **special exhibition of 25 years of Suzuki Intruder**, which will show exclusiv exponents and a mutlimediashow at the centerstage, which will thrill all V2-fans.

At the **big raffle** there are waiting highly desirable prizes for the visitors, with a total value **over 25.000 Euros**. The main prize on Friday will be a **9-days-Harley-tour across the USA** for two people including flights, hotel and two rental bikes. On Saturday you can win a virgin **Harley-Davidson Sportster Iron**, and on Sunday the winner rides home on a brandnew **Victory Vegas**.

On Saturday there is a brilliant **After-Show-Party** in the evening, doors will be open at 6pm (location: discotheque „Glashaus“, Begakamp 8, Bad Salzuflen). The audience will be heated up with the Rock-Band „The Vibromatics“, Stripshows and with lots of other surprising highlights.

As in the past years, the CUSTOMBIKE 2010 will be the ultimate highlight of the year, not only for motorbike-maniacs. The fair will continue to follow its successful motto, **„being unlike the rest“!**
